

Welcome to the Kunming Homebrewing Society

Introduction

The Kunming Homebrewing Society is for all people actively partaking in or interested in homebrewing beer, cider, and mead in Kunming. Brewing beer is both an art and a science - understanding the science and appreciating the artwork will help you enjoy beer even more. It's not always easy to find all the safe and reliable equipment and quality ingredients in China and so meeting up with other homebrewers is the best way to learn what you need to know.

We're dedicated to spreading the knowledge, culture, and appreciation of real beer in China. Membership is open to everyone, no matter brewing experience. We meet on the 3rd Saturday of every month at a different Kunming bar each time. A meeting will include a short presentation on a brewing topic, welcoming new members, open discussions, and of course beer tasting. We encourage everyone to bring samples of their homebrew for everyone to taste! Everyone is free to attend meetups even if you're not a member.
